

August 2, 2010

Dear ICCS Families,

Hope you are all enjoying your summer vacation. I am looking forward to a new school year and caring for your children.

Just wanted to send out a friendly reminder to have a current shot record and health physical, documented on a Catholic Health Record, on file for all new families, pre-k, kindergarten and seventh graders. Typically children have new immunization requirements at these ages. If you have children in these grades please call your physician and get an updated shot record for me to keep on file. It is required before your children can start school August 17th. Attached are immunization requirements, health checklists and medication permits for your convenience.

As a reminder and to inform new families, a Medication Permit Form is required for all prescriptions and over-the-counter medication, excluding chapstick and cough drops not containing herbal medication. All prescriptions must be labeled with the student's name and dosage information. All over-the-counter medication must be in the manufacturer's box with the student's name and dosage information. Students may not self-medicate or carry medication on their person. All medications must be checked into the nurse's station with a Medication Permit Form. Please check your student's medication often, as we will not administer expired medication. If your child requires a nebulizer treatment, please contact the school office for details. If you need further information regarding medication, please refer to your handbook or call the school office.

I thank you for this opportunity to promote health, wellness and safety. It is a blessing to be part of your lives. If you have any questions or concerns please feel free to call me on my cell 469-576-1762.

Sincerely,

Robin Davis

School Nurse
